

Heat for Our Heroes

We want to keep a deserving local veteran warm this winter with a new gas furnace. We're looking for active military members, veterans and surviving spouses in need. We have teamed up with our local York Distributor and the Hanover American Legion Post 764 to find a deserving member of the military community. Houston will provide the labor and material to install the new furnace while York will provide the furnace. Please see the back of this application for requirements.

Winners will be announced on November 28th.
